

“Rorie is a killer CTO. He is that rare combination of big, long-term thinker and practical tactician. I've personally seen him lay out and execute on a transformative vision piece and yet stay nimble and responsive to changing circumstances”

Carl Mesner Lyons

CMO at lastminute.com, Toptable, Hailo

...“the change Rorie brought when coming in as an Interim was truly amazing and we wanted to feel like we were firing on all cylinders”...

Pages 567-568

“Rorie is a visionary, with the ability to set and direct strategy whilst putting in place the processes and approach necessary to test and learn at a tactical level. His focus is always on benefit delivery, quickly, something any commercially biased leader will welcome. Rorie exemplifies technology led change more than any other CTO I have met”

Jason Smith

UK Marketing Director Yell

Rorie Devine

Interim CEO CTO & Growth Hacker

Rorie has worked internationally and has held leadership positions at companies including interim.team, John Lewis Partnership, Camelot, Hailo, Betfair, BuzzMyVideos, Yell, Full Tilt Poker, Perform Group and broadbandchoices. He understands that leadership is about change, and relishes the opportunity to scale businesses and teams, increase revenue, evolve business models, remove structural constraints and/or improve efficiency. Very much with a hands-on approach, Rorie derives accomplishment from maximising the impact from talent by creating great platforms and frameworks as well as helping to foster brilliant cultures

TRANSFORMATION

- Set up or scaled a number of new operations in the US, Europe and Asia
- Implemented Agile Development → Mission Team and Automation approaches using Cloud/Micro Services/Event Driven Patterns /AI/Neural Networks/Blockchain/Ethereum/Big Data + many others
- Scaled a team from 35 to 350 reports focussing on simplicity, agility and automation
- Restructured and re-platformed companies facing major technology constraints. Technologies deployed include Amazon Web Services/Google Cloud/Google Go golang/RabbitMQ/nsq/Protocol Buffers/MySQL & Cassandra/node.js /React/WordPress + many others

DELIVERY

- Led the technology team for two of the highest-funded and fastest growing technology companies in the UK
- Implemented consumer services on leading edge technologies

RELATIONSHIPS

- Membership of M&A teams, investment due diligence and pitch teams, executive committees, and board membership for group and external companies. Introduction of potential investors.
